WANTED BOARD—Family of three adults, outside of city for summer; use of stable necessary; give full information, rates, etc. E. S., care this office.

WARM DEFENSE OF MR. KERNS

Writer Criticised the Management of the Rosebud Society.

Somewhat of a sensation has been created in Methodist Church circles by the publication in a denominational weekly of a rather harsh criticism of the management of the Rosebud Missionary Society of Virginia, of which Mr. Frank L. Kerns, of this city, is the secretary and treasurer. Hot reply to the charges has been made from Richmond, and there appears to be likelihood of some further interesting developments.

The paper in which the article appeared is the *Methodist* of Danville, and the writer is "M," supposed to be a prominent layman. While he commended the work of the Rosebud Society, which he declared to be one of the grandest organizations in the entire Methodist connection, "M" asserted impressively that the children have to pay over twenty-five per cent. of the gross amount they raise for missions and expenses in the office of the general secretary and treasurer in Richmond, Va. "Think of it!" he declared. "Out of every dollar raised from the pennies, nickels and dimes contributed by the children of the Rosebud Society for the cause of foreign missions, twenty-five cents of every hundred thus contributed never get out of the bounds of our conference. We mean no reflection upon the Board of Managers of the noble organization, but in the interest of the children, as well as the great cause they are working for, we stand in our place to say that the cost of getting this sacred fund where it is designed to go is entirely too expensive, and should be lightened very much."

The many friends of Mr. Kerns here were highly indignant at the article, and at once proceeded to take the matter up. Mr. T. Moody Campbell, of this city, son of the president of the society, prepared a hot reply, which he submitted to the Danville Methodist for publication. Mr. Campbell declares that the paper declined to print it. He then sent it to the Christian Advocate, of this city, in which it appears this week.

In his article Mr. Campbell shows among other things that the total expenses of the society are not twenty-five per cent., as stated, but between eight and nine per cent. His criticism of "M" for his haste to rush into print, declaring that if a man is seeking by his criticisms to aid a cause, and has any suggestion of value, it would do a hundred times greater good for him to speak quietly to those in authority than to blazon indefinitely accusations of misconduct without offering a scintilla of remedy. The article continues:

"In regard to the incumbent of the office of secretary and treasurer, Mr. Frank Kerns, no one has been more sacrificing and truly heroic than this man. I will say this, in spite of protests from him. For several years before he accepted the office he did most of the work, receiving \$60 a year and paying an assistant \$1 a week. After that for a number of years he received \$200 a year for his work, and invested in the cause from his great love of it \$500 a year. Loss? Oh, yes, as some count loss. This is only a small part of the sacrifice he has made—but I retain out of deference to his rare and shrinking modesty, 'M' is credited with sincerity in saying that he entered no complaint against Mr. Kerns; but since complaint has been entered we Rosebuds must see that it does not fall even by implication on the heart of our beloved secretary and treasurer."

INVESTIGATION MATTER.

No New Developments Pending the Board Meeting.

Pending the meeting of the Board of Aldermen on Tuesday night there is but little stirring of an interesting nature in the proposed municipal investigation matter. The hands remain to be quiet awaiting the announcement of the committee, which will come shortly after the Board meets.

The matter, however, is one of the utmost importance, and every turn will be watched earnestly by all.

While neither of the presidents have given any positive intimation as to who will be the chairman of the committee, both known to be thinking over the matter with the view to having it composed of nine of the very best men in the community, it is considerable speculation as to the possible composition of the committee, and when it shall have been named the announcement will be widely read.

It is thought now that the body will probably organize and get down to business by the latter part of next week.
